

ZONING ADMINISTRATOR NOTICE OF DECISION

Date: March 30, 2015
Applicant: LCC for Sprint PCS
Case No.: PCC-14-084
Address: 330 Trousdale Drive
Project Planner: Harold Phelps, AICP

Notice is hereby given that on March 30, 2015 the Zoning Administrator considered Conditional Use Permit (CUP) application PCC-14-084, filed by LLC International on behalf of Sprint PCS ("Applicant"). The Applicant proposed to add a second light standard with a ray-dome and 3 panel antennas, 3 Remote Radio Units (RRU) below the antennas, 1 top-hat cabinet extension, and a 2-ft. microwave dish ("Project"). A previous CUP (PCC-04-043) was approved for Nextel (now Sprint) for the existing 3-panel antenna light standard and equipment enclosure area. The Project is located at 330 Trousdale Drive, near North Glover Avenue west of Fourth Avenue ("Project Site") in a parking lot in front of an industrial warehouse owned by Reginald T. Miller ("Property Owner"). The Project Site is zoned IL (Limited Industrial). The General Plan designates the project site Limited Industrial on the Land Use Diagram.

Planning Staff has reviewed the Project for compliance with the California Environmental Quality Act (CEQA) and it has been determined that the Project qualifies for a categorical exemption pursuant to Section 15303-C (small structures on existing developed sites) of the State CEQA Guidelines. No further environmental review is necessary.

The Zoning Administrator, under the provisions of Sections 19.14.030.A and 19.89 of the Chula Vista Municipal Code (CVMC), has been able to make the findings for approval of this conditional use permit as required by CVMC Section 19.14.080:

- 1. That the proposed use at this location is necessary or desirable and will contribute to the general well-being of the neighborhood or the community.**

Telecommunication service in the area will be improved by enhancing the existing facility which will also provide a public convenience for cell phone users near this location. The proposed additional light standard panel antennas do not remove parking lot spaces and will improve lighting on-site. In addition, the facility will not interfere with the existing surrounding industrial and commercial activities. The facility will improve the general well-being of the surrounding industrial, commercial and residential communities by ensuring uninterrupted wireless service.

- 2. That such use will not under the circumstances of the particular case be detrimental to the health, safety or general welfare of persons residing or working in the vicinity or injurious to property or improvements in the vicinity.**

The telecommunication land use provides the wireless communication company greater reliability in the coverage area, including improved emergency telecommunications that will improve the health, safety, and general welfare of persons residing or working in the vicinity. The telecommunications equipment enclosure also provides a backup battery pack so the facility can continue to function should an emergency or natural disaster occur, which will also enhance the general health, safety, and welfare of the citizens of Chula Vista.

3. That the proposed use will comply with the regulations and conditions specified in the code for such use.

The CUP requires the Applicant and Property Owner to fulfill conditions of approval and compliance with all applicable regulations and standards specified in the City's Wireless Ordinance of the CVMC for such use. The use will be built in compliance with the City's Wireless Ordinance development criteria and all other City zoning and building regulations. The conditions of this permit are approximately in proportion to the nature and extent of the impact created by the use in that the conditions imposed are directly related to, and of a nature and scope related to the size and impact of the use. The use complies with all regulations and conditions specified in the CVMC as established under this Conditional Use Permit PCC-14-084.

4. That the granting of this Conditional Use Permit will not adversely affect the General Plan of the City or the adopted plan of any government agency.

The integration of wireless facilities within existing land uses helps to achieve the General Plan's Public Facilities and Services Element (PFS) 24.2 Objective. The project is considered a co-location since there is already the existing facility located on the project site. As part of the approval of this CUP, the applicant will provide a matching ray-dome on the existing light standard with panel antennas. The equipment area is enclosed in front of industrial warehouse and is only visible to other industrial and commercial users.

BASED ON THE FINDINGS ABOVE, THE ZONING ADMINISTRATOR hereby approves Conditional Use Permit PCC-14-084, as described above subject to the following conditions of approval:

I. Prior to the approval by the City of Chula Vista for the use of the subject property in reliance upon this approval, the Applicant shall satisfy the following requirement:

1. The Applicant/Representative and Property Owner shall execute this document by making a true copy and signing both this original Notice of Decision and the copy on the lines provided below, said execution indicating that the Applicant/Representative and Property Owner have each read, understood and agreed to the conditions contained herein, and will implement same. Upon execution, the true copy with original signatures shall be returned to the Development Services Department.

Failure to return the signed true copy of this document within 30 Days of the effective date herein shall indicate the Applicant/Representative and Property Owner's desire that the project, and corresponding application for building/grading permits and/or business license, be held in abeyance without approval.

Signature of Applicant/Authorized Representative

Date

Signature of Property Owner/representative

Date

2. The Applicant shall maintain the Project in accordance with the approved plans for PCC-14-084, date stamped approved on March 30, 2015, which includes a site plan and architectural elevations on file in the Planning Division, the conditions contained herein, and Title 19. Building permit plans shall include a ray-dome to be added to the existing light standard 3-panel antenna to match the new light standard ray-dome with 3 antennas. In addition, a lighting plan showing how lighting shall be confined within the site and prevent glare onto adjacent properties or streets per CVMC 19.66.100.

II. The following on-going conditions shall apply to the Project as long as it relies upon this approval.

3. Approval of this Project shall not waive the Applicant's responsibility to comply with all sections of Title 19 of the Chula Vista Municipal Code (CVMC), and all other applicable City Ordinances in effect at the time of building permit issuance or the approval of this Conditional Use Permit.
4. The Applicant shall execute this Conditional Use Permit as the authorized use only. Any new use or modification/expansion of uses shall be subject to the review and approval of the Zoning Administrator.
5. The Applicant shall cooperate with telecommunications companies in co-locating additional antennas on subject property provided said co-locators have received a Conditional Use Permit for such use at said site from the City. Applicant shall exercise good faith in co-locating with other communications companies and sharing the permitted site, provided such shared use does not give rise to a substantial technical level- or quality-of-service impairment of the permitted use (as opposed to a competitive conflict or financial burden). In the event a dispute arises as to whether Applicant has exercised good faith in accommodating other users, the City may require a third party technical study at the expense of the Applicant.

6. Within 90 days of cessation of the business operations and use of the antennas, the Applicant shall submit a substitute user to the satisfaction of the Development Services Director and/or remove the Project and all associated equipment from the Project Site. If the facility is removed, then the Applicant shall restore the Project Site to its original condition. Any changes on this Conditional Use Permit shall require a modification to be reviewed by the Zoning Administrator.
7. The Applicant/Representative and Property Owner shall and does hereby agree to indemnify, protect, defend and hold harmless City, its City Council members, officers, employees and representatives, from and against any and all liabilities, losses, damages, demands, claims and costs, including court costs and attorney's fees (collectively, liabilities) incurred by the City arising, directly or indirectly, from (a) City's approval and issuance of this Conditional Use Permit, (b) City's approval or issuance of any other permit or action, whether discretionary or non-discretionary, in connection with the use contemplated herein, and Applicant/operator shall acknowledge their agreement to this provision by executing a copy of this Conditional Use Permit where indicated above. The Applicant/Representative and Property Owner's compliance with this provision is an express condition of this Conditional Use Permit and shall be binding on any and all of Applicant/Operator's successors and assigns.
8. Any violations of the terms and conditions of this permit may result in the imposition of civil or criminal penalties and/or the revocation or modification of this permit.
9. If any of the foregoing conditions fail to occur, or if they are, by their terms, to be implemented and maintained over time, if any of such conditions fail to be so implemented and maintained according to their terms, the City shall have the right to revoke or modify all approvals herein granted, deny, or further condition issuance of all future building permits, deny, revoke, or further condition all certificates of occupancy issued under the authority of approvals herein granted, institute and prosecute litigation to compel their compliance with said conditions or seek damages for their violation. Applicant or a successor in interest gains no vested rights by the City's approval of this Conditional Use Permit.
10. This conditional use permit shall expire on March 30, 2025, ten (10) years from the date of this Zoning Administrator approval. The Applicant may request an extension 30 days prior to expiration date from this conditional use permit approval. The Zoning Administrator shall review this use for compliance with the conditions of approval and any applicable codes and regulation, and shall determine, in consultation with the Applicant, whether the Project shall be modified from its original approval, denied or extended.

APPROVED BY ZONING ADMINISTRATOR OF THE CITY OF CHULA VISTA, CALIFORNIA, the 30th day of March 2015.

Michael Walker, Zoning Administrator
